This guide applies only to undergraduate students admitted under the following academic cohorts:

You are required to complete the specific number of General Education (GE) courses prescribed by your programme requirements. Each GE course must be chosen from a different ‘field of study’, and these fields must differ from the ‘field(s) of study’ of your own degree programme.

You should check your [programme requirements](#) for details for the specific number of GE courses required, and your Advice Sheet on Course Selection – available on the [University’s website](#) (Undergraduate & Sub-degree Students > Course Enrolment > Advice on Course Selection) – to confirm if you are advised to enroll in any GE courses this term.

If you are assigned a special study plan, separate communications will be sent with further details.

Step 1. Identify Your Programme's 'field(s) of study'

Locate your academic plan below to identify your programme's 'field of study'. Please note that some programme may have more than one 'field of study'. **You cannot take GE courses from these fields.**
